Group Assignment #3 “Survey” due Thursday 4/29

Principles of Survey Design

Why are we doing surveys?

- **Ideally, we'd be in the field but...**

Why are we doing surveys?

Reaffirming the group options

Option A: Application Prototyping

Option B: Application Deploying

Community Focused Surveys

Let the community speak for itself.

We should not be making any “conclusions”

Important points

1. Test your survey!
2. We are here to listen and empower **NOT** take information and leave.
3. Acknowledge and try to avoid as much bias as possible
4. Keep it short.

#1 Reason why you should test your survey...

#1 Reason why you should test your survey.

Respecting the community.

Checking for respect

- Each question **MUST** have an important purpose
- If a question is not necessary, **DO NOT** ask it just because it'd be “nice to know”.
- Less is more.
- Each question takes someone's time
- Each survey to contributes to survey fatigue

A note about survey fatigue

A note about survey fatigue

Every time a survey that goes out it reduces the chance of future surveying in that same community or group.

So... make it pleasant and meaningful, another chance may not come.

#2 – We are hear 2 listen

How we listen is important

- Access to internet may be limited
- Language barriers
- Dependent on social networking
- All the above could create biased responses

How we listen is important

- Focus on open-ended questions.
- Do not “lead” (i.e. try to get a specific answer) in questions both open-ended and closed.
- If you must include closed-ended, do not have:
 - Tons of options
 - Long options

Why do you think too many options is bad?

Example about language barriers

The COVID-19 vaccine is here. And everyone in California will get a turn.

Safe, free, and effective COVID-19 vaccines are now available to everyone age 16 and up. Let's end this pandemic. Check for available appointments and book your vaccination as soon as you can.

Just follow these easy steps:

Answer a few questions, choose a location, then select a date & time.

If no appointments are available in your area, register and we'll notify you when more appointments open up.

Doing better

STOP AAPI HATE

Our communities stand united against racism. Hate against Asian American Pacific Islander communities has risen during the COVID-19 pandemic.

Together, we can stop it.

#3 Minimizing Bias

What is bias?

- **Preset notions and values**
- **As humans we are all biased, but we can learn more from people and ourselves when we set aside our own bias and listen.**
- **Why? Well, a lot of these social problems come from people assuming (wrong) things.**
- **Let's break down those barriers.**

Minimizing bias

- **Ask simple questions with simple wording**
- **Never assume people know what you are talking about,**
- **Define terms if you must use them**

#4 Keep it Short

Keep it short 4 you and 4 them

Keeping it short

- **A shorter survey means more space to share their stories as people**
- **Tie each question to who you are looking to empower**
- **If community members can take time to respond, that's where open-ended questions are meaningful.**

Final Takeaways of Survey Design

Be respectful.
